ABOUT US

Vagmon e-Grup & Logistics is a provider of Cargo Clearing & Freight Forwarding Services. We offer accelerated, pro-active and prompt management of inbound and outbound goods and consignments. This we do through simplification of the complex documentation and communication processes.

Our CEO conceived this business after playing roles such as Logistics Documentation Specialist, Clearance Operations Manager, etc. Responsible for overseeing preparation of commercial documents, he witnessed first-hand the effect of complex multi-party transactions, long paper trails, poor coordination between partners and government agencies, mismanaged port system and resultant cost implications.

Technophobic and fraudulent Agents exacerbate this problem. 5-10 days clearing end up taking 3-4 weeks, with high demurrage arising from poor handling by not well-informed Agents. Importers crave an Agency with right knowledge, condor, and is tech informed.

Vagmon e-Grup & Logistics Ltd is a digitalized Customs Broker with best knowledge of the industry, honest and reliable. Our Logistics Management and Service-Oriented approach improves customer service levels in the industry.

The incorporation of our company under the companies and Allied Matters Act 1990 of the Federal Republic of Nigeria in 2011 initially as Vagmon Integrated Service, but was upgraded to Vagmon e-Grup and Logistics Ltd in 2019. With its registered office located at 2 Kemmer Close Mini Avenue, off NTA Road, Mgbuoba Port Harcourt Rivers State, Nigeria.

Currently, we moved our corporate head office from Port Harcourt to Adeniran Ogunsanya Surulere Lagos for closeness to Apapa. We also maintain an office at #8 Elebor Street D-line Port Harcourt, Rivers State Nigeria.

Due to the nature of Clearing and Forwarding Business, and for the purposes of continuous availability, we have sister companies fully registered with Nigeria Customs. With this arrangement, we remain in business in case our licence is requiring renewal, or by any means blocked by the authority.

Vagmon e-Grup & Logistics have representative at Abuja, the federal Capital Territory, Lagos, Warri, Port Harcourt and Calabar. The company also has made advance progress in establishing overseas contact offices in international shipping hub centres for ease of international transactions. We are guided by the vision and principles of hard work, efficient performance and customer satisfaction. The company pools the expertise of experienced and competent professionals to provide efficient services within the logistics industry. Training and retraining of work force is a culture inherent in with us.

BRIEF BUSINESS ANALYSIS FOR VAGMON

SWOT Analysis (Strengths, Weaknesses, Opportunities, & Threats)

Strengths:

- Documentation, which is key to clearing, is our forte.
- Unique expertise in Customs Brokerage.
- Tech-savvy

Weakness: Networking is a major weakness. To mitigate this, we have appointed a proven networker as Non-Executive Director of board.

Opportunities: Untapped use of info-tech, blogs and social media integration.

Threats: The threat is in the form of stiff competition by other Agents and high clearing cost. We seek minimum cost of clearing through advance planning.

SELECTED RECENT CLIENTS AND PROJECTS EXECUTED (ARRANGED FROM MOST RECENT)

PROMAT COATING COMPANY NIGERIA LTD

OLU-OBASANJO ROAD, PORT HARCOURT
